Education

Parul institute of engineering and technology
Bachelor of Technology in Information Technology

Vadodara, India
Sept 2022 – May 2026

Skill Summary

Frontend Stack: Html, Css, JavaScript, React, TailwindCss, Bootstrap

Backend Stack: Node, Express, RESTful APIs, JWT Authentication

Tools/Platforms: Git, Github, Gitlab, Postman, Vs Code, Netlify, Render, Vercel, Figma, Canva

Database and Other Tech Skills: MongoDB, Mongoose, MySql, API Integration, Responsive Design, Deployment, Debugging

Soft Skills: Presentation, Planning, Problem-Solving, Teamwork, Active Listening, Adaptability, Analytical Thinking

Experience

BlueStock Fintech

October 2025 – December 2025

Software Engineer Intern

Remote

- Gained strong hands-on practice with JavaScript debugging using VS Code Debugger and browser Developer Tools to identify, analyze, and resolve runtime and logical errors efficiently.
- Worked extensively with GitLab for version control, including branching, committing, resolving merge conflicts, and following collaborative development workflows.
- Actively participated in team communication, discussing issues, sharing blockers, and collaboratively solving problems to ensure smooth project progress.
- Contributed to an ongoing production-level project, understanding existing codebases, following established workflows, and implementing features/fixes without breaking functionality.
- Developed a clear understanding of project architecture and best development practices, including clean code principles, proper folder structure, and maintainable coding standards.

Projects

GoHelp | *Node.js, Express.js, MongoDB, JWT Auth, Tailwind CSS, EJS, Html*

June 2025

- Developed a full-stack home services booking platform using Node.js, Express.js, and MongoDB.
- Implemented JWT-based authentication and role-based access for users and service providers.
- Designed scalable database schemas for managing users, services, and orders.
- Built a mobile-first responsive UI using EJS and Tailwind CSS.
- Collaborated in a 4-member team, contributing features, resolving issues, and following best development practices.

Iconica E-commerce Plateform | *Node.js, Express.js, MongoDB, Razorpay API, Tailwind CSS*

August 2025

- Built a luxury e-commerce platform allowing users to browse products, add to cart, and place orders.
- Integrated Razorpay payment gateway for secure online transactions and order confirmation.
- Implemented user authentication and protected routes using backend middleware logic.
- Developed admin features for product management, handling listings, updates, and order flow.

Ochi Design | *React.js, Tailwind CSS, Framer Motion, React Router Dom*

October 2025

- Developed a modern, animated landing page with smooth scrolling and interactive UI using React.js and Tailwind CSS.
- Implemented page transitions and animations using Framer Motion for an enhanced user experience.
- Used React Router DOM to enable seamless navigation across sections with responsive, performance-optimized layouts.

Achievements

- Hackathon Leadership: Led a 4-member team at PU CodeHackathon 2.0, securing 11th place among 60+ teams. Developed GoHelp, an on-demand home services platform, focusing on real-world problem solving, scalable backend architecture, and effective team collaboration under time constraints.
